Product/Service Information

 **BAX Security**

Security that "BAX" you up.

Tel: 905-297-1257

A BAX Security system monitored 24/7 ensures your peace of mind.

From only **\$15** per month, your security is monitored by trained and bonded staff at a ULC listed monitoring station. Police, fire, or medical aid can be dispatched immediately.

At BAX Security we use only leading-edge technology. The Power Series™ is the most commonly used system. For specialized commercial applications we install MAXSYS.

These powerful systems offer the highest level of alarm communications, including personal paging and police dispatch.

They also incorporate over a dozen sophisticated false alarm prevention features, making them the most reliable systems on the market today.

Top of the line security systems give you a fully customized system... including wired or hybrid (hardwired / wireless).

Your BAX security system is capable of monitoring...

- Window & door sensors
- Passive infrared motion detectors
- Infra red beams
- Medical alert
- Panic buttons
- Smoke detectors
- Carbon monoxide (CO) detectors
- Low temperature sensors
- Adjustable temperature sensors
- Wireless key remotes
- Glass break detectors
- Water sensors
- Natural gas sensors
- Individual entry and exit times
- Remotely operated technology – lights, kettles, garage doors, and more.

Digital Cameras

See what the camera sees -- from any Internet connection in the world

Watch your employees... your babysitter... your housekeeper

Interior cameras

Exterior cameras

Low-light cameras

Hidden spy cameras

Heated camera housings for outdoors

Anti-fog and high humidity housings

Dome housings

Digital recorders use the same hard disks as your computer – no tape to change
