

When a Free Security System is a *lousy* deal...

Many alarm companies offer a "Free" system.

If you sign a three-year contract, "All" you pay is the monthly monitoring fee...

Monitoring is \$25 per month

$\$25 \times 12 \text{ months} = \300 per year

After 3 years $\times \$300 = \underline{\$900}$

And in many cases you still don't own the equipment.

Compare a **BAX basic system**

For \$250 you own the equipment

- Keypad with Panic button
- 3 door contacts
- Motion or glass break detector
- System panel and steel case
- Backup battery
- Siren
- Stickers

Monitoring is only **\$15** per month

$\$15 \times 12 \text{ months} = \mathbf{\$180}$ per year

After 3 years $\times \$180 = \mathbf{\$540}$

$\$540 + \$250 = \mathbf{\underline{\$790}}$

Save \$110 the first three years...

After that save \$120 per year

And you own the equipment

While we don't agree with free systems... we believe in [FREE Offers](#)
